

## Strengthening diaspora impact and bringing communities together.

The TDA Foundation is the philanthropic arm of The Diaspora Academy. We strengthen diaspora impact and bring communities together, building capacity, creating networks, and elevating the organizations that serve diaspora communities across the United States.

We see a world where diaspora communities are **empowered, connected, resourced and mobilized** to drive positive outcomes in their communities, both here and there.

### THE PLATFORM BEHIND VISIBILITY

#### DiasporaSearch

DiasporaSearch is the platform that puts diaspora communities on the map. It identifies and highlights diaspora organizations across the United States, so communities find the groups serving them, organizations find one another, and allies find the organizations they want to support.

- ◆ Map diaspora organizations across regions and sectors.
- ◆ Surface community insights that guide partnership and investment.
- ◆ Connect allies to the organizations doing the work.

### OUR MISSION

Our mission is to make diasporas more visible, accessible, and networked through capacity building, community insights, and connections. We aim to strengthen diaspora communities' impact and build more partnerships focused on diaspora impact.

Our work is guided by **dignity, empowerment, investment, co-creation, and accountability.**
